

# PE Case Selection Sheet

Stop using the wrong case for the wrong equipment

For AV rental companies, LED screen rental teams, lighting suppliers, AV integrators, distributors and OEM buyers.

Choosing a PE protective case is not only about case size.

The right option depends on equipment type, inner dimensions, transport frequency, handling needs and interior protection

This sheet to narrow down the suitable case direction before asking for a quote or placing a trial order.

## Simple Selection Rules

- Rack-mounted equipment → 525 Rack Cabinet
- LED panels → LED Display Box
- Beam lights / PAR lights → Lighting Case
- Compact AV gear → PE U Box
- Large, mixed or touring equipment → PE Flight Case

# Quick Selection Matrix

Equipment / Use Case	Suggested Case	Key Info Needed
Microphones / compact AV gear	PE U Box	Equipment size, U size, quantity, foam / mesh lid
Amplifiers / power units	525 Rack Cabinet	U height, depth, weight, front / rear access, wheels
Large AV / touring gear	PE Flight Case	Dimensions, weight, stacking needs, EVA / partitions
Moving head beam lights	Beam Light Box	Light model, dimensions, weight, quantity per case
PAR lights	PAR Light Box	Light diameter, handle width, quantity per case
500×500 LED panels	LED Display Box	Panel thickness, quantity per case, partition style
1000×500 LED panels	Large LED Display Box	Panel thickness, loading direction, interior protection
Distributor / repeat supply	Standard + Custom Options	MOQ, packing method, repeat order consistency

## Before We Recommend a Case Model

Information Needed	Why It Matters
Equipment type	Helps match the correct case structure.
Equipment model	Helps check whether an existing case may fit.
Equipment dimensions	Inner size matching is more important than outer size.
Equipment weight	Helps confirm wheel and handling requirements.
Quantity needed	Affects packing and repeat supply planning.
Units per case	Important for LED panels, PAR lights and rental fleets.
Use scenario	Rental, touring, storage, project delivery or resale.
Interior requirement	Foam, mesh, EVA, bare interior or custom partitions.
Packing requirement	Assembled, knock-down, carton or shipment planning.
Destination country	Helps estimate packing and shipping needs.

Need a quick case recommendation?

Send us:

- Equipment type
- Dimensions
- Quantity
- Use scenario
- Interior / wheel / packing requirements

We can suggest a suitable PE case direction for your project, rental fleet or repeat supply program.
